

1 36073/GSL/P389

SIMPLIFIED DEVICE TO QUICKLY COOK FOOD

5 ABSTRACT OF THE DISCLOSURE

10 A device to bake farinaceous foods such as cakes, cookies,
breads, pies, and pizzas more rapidly and flavorfully, with
retention of desire food textures and reduced risk of burning by
the use of intermittent application of radiant energy. The
preferred embodiment rotates farinaceous ingredients in front of
a radiant heat source. The preferred embodiment may control oven
15 temperatures by regulating the amount of outside cool air fan
forced into the oven cavity.
